

ABOUT ME

I'm Diana, a FIT CTU student from Slovakia trying to make my way in the world of web development. During the past few years, solving complex problems became my motivation, as well as my everyday duty. I enjoy both the logical and creative aspects of development, programming itself or other parts of the IT world, and I'm always excited to learn something new.

SKILLS

PROGRAMMING

C, C++, Java, JavaScript, PHP, Python, SQL

WEB

HTML, CSS, React, Node.js, REST APIs, JWT auth

DATA

PostgreSQL, Oracle, SQLite, XML / XSLT, RDF / SPARQL, JSON-LD

CONCEPTS

OOP, MVC, algorithms & data structures, UML

TOOLS

Git, GitHub, GitLab, Docker, Linux / Bash, Figma

LANGUAGES

Slovak	native
English	C1
Spanish	B1

DIANA SICHANHOVÁ

Third-year Computer Science student at the Faculty of Information Technology, CTU in Prague, specialising in Web Engineering.

EDUCATION

2024 – present

CTU IN PRAGUE – FACULTY OF INFORMATION TECHNOLOGY

Bachelor's degree, Computer Science (Web Engineering)

Programming, algorithms, databases and web development. Currently in my third year.

2023 – 2024

AVANS UNIVERSITY OF APPLIED SCIENCES, NETHERLANDS

Bachelor's degree, International Business

Global markets, economics and business processes. Strong emphasis on leadership and teamwork.

2019 – 2023

GYMNÁZIUM DUBNICA NAD VÁHOM

Secondary school

Focused on maths, logic and general knowledge. Graduated with a final exam in Mathematics, strengthening both analytical and logical thinking skills.

PROJECTS

BI-VWM · PAIR PROJECT — GitHub ↗

MOVIE RECOMMENDER

Full-stack web app that recommends movies using user-based collaborative filtering on the MovieLens 100K dataset. Spearman, Pearson and cosine similarity written from scratch, plus an admin panel for tuning the parameters.

React · Node.js · JavaScript · SQLite

BI-PJV · INDIVIDUAL — GitHub ↗

THE DRAKE GAME

Turn-based strategy game inspired by chess. Game logic built with object-oriented design, graphical interface in JavaFX.

Java · JavaFX · Maven

BI-MDF · INDIVIDUAL — GitHub ↗

RESTAURANT DATA FORMATS

One small dataset of restaurants, employees and customers modelled in RDF, SPARQL, XML, JSON-LD and CSV on the Web.

RDF · SPARQL · XML · CSV · JSON-LD

BI-ZWU · INDIVIDUAL — dianasichanhova.netlify.app ↗

PERSONAL WEBSITE

My first website, a static personal site about me and my hobbies with a responsive layout, built only with HTML and CSS.

HTML · CSS
